To Whom It May Concern,

It is with regret that I must inform you that I will be resigning from my position as Network Manager effective 3/1/2023. I have been offered a position with a managed service provider and will be starting with them at that point.

It has been a pleasure working with the district over the past 4 ½ years and I have nothing but good things to say about my experience working with my colleagues, the staff and students. I am glad that the Colchester Public Schools are in a much better position to not only provide access to, but also serve as a lighthouse district moving forward with regards to technology and its integration within the learning environment.

Thank you for the opportunity to be a part of it all,

- Robert Meany
